

# **TIRED OF FAST FOOD RADIO?**

**MY NETWORK NOURISHES YOUR: LIFE, FAMILY, BUSINESS, & SOUL!  
WE INSPIRE & EDUCATE YOU 5 DAYS A WEEK 9AM PST!**

I am the president and the founder of the I'm Thankful, LLC. Educating, Empowering and Inspiring positive dialog within Families (however this looks in your life). Based in Inspirational Products and a National top Rated Radio Show and Network.

*I am driven by "creating the possibility" and my passion to create "lasting light bulb moments" for myself and people around me. This is why I have created a Radio Network that has a focus on Positive dialog, Education and Collaboration both personally and professionally.*

*Today's "new paradigm" both for personal and professional growth with consciousness.*

After speaking with many **Families/Parents** of diverse backgrounds the underlining consensus was that there are some topics that families all agree they want to hear. *And two things that they didn't want to hear and are **not** discussed on the I'm Thankful Radio Network; biblical religion and politics.*

Our intention is to empower "all" .... a belief in self. All that we discuss can be adapted to all walks through life and **not** dependant on color, creed, faith and sexual orientation.

M/W/F I have "respected professionals" that I handpicked for my Mission. That mission to create a safe educational environment and "a maintenance tool" via the radio for families/parents however this looks in your respective life.

**1.) Parenting** (*Mondays-Peeling Mom off the Ceiling*), we feel we could be one phone call away from DSHS because we raised our voice at the grocery store. To a great Park, Plumber and parenting book.

**2.) Foods; Health and Wellness** (Wednesday-I'Chel Wisdom) Back to Traditional Foods, we are so fed up with the BIG PILL mentality, to GMO's in our food to chlorine in our water. Making Organic the norm!

**3.) Finance** (*Friday-Femme Finance*) can be very intimidating to many yet we all feel too scared to ask the important question (not here): how to save for educations to what happens when we die to how much am I worth financially and so much more.

I personally host my Radio shows on Tuesday and Thursday

**4.) Entrepreneurship** (Tuesdays ToolBox): We are all reinventing ourselves we also have seen a huge increase in small business and **entrepreneur families**. I am one of them so I wanted to create an environment that we could get all our Professional needs met and to maintenance a successful business just like a large corporation: Sales, Marketing Social Media and so much more.

**5.) Personal Empowerment**, Thursday's **the Empowerment Hour** hosted by Sue Lundquist. I have bestselling Authors, Celebrities and Experts in their respective fields (Gay Hendricks, Gary Zukav, Dr. Joe Dispenza etc.) of health, **self-help, Spirit**, all with a back bone on Thankfulness and **raising our consciousness**.
